CURRICULUM HIGHLIGHT

Writer's Workshop:

Writing skills are built with consistent reinforcement and practice. This class will focus on building every writer as we work through the writing process!

Public Speaking:

Choosing words wisely and using good tone are all crucial communication skills that students can learn even at a young age. This class will take a fun approach to addressing these skills through public speaking and presentation practice activities!

Pathway to Literacy:

Our guided reading program will help students in moving forward and processing increasingly challenging texts with understanding and fluency through selective books.

Game On:

Spin the spinner, beat the clock, skip ahead, and level up! The kids will play their way through this class while learning the valuable characters that'll guide them through all the twists and turns of their lives. They'll find that even when they mess up it's NEVER "game over."
