- Refer a friend and get \$25 OFF/registered child

WEEK	DATE	THEME	BIG IDEA
WEEK 1	6/3~6/7	STEM Exploration	Hands-on learning activities that allows students to think creatively and use innovation to find unique solutions to common problems – ultimately making our world a better place.
WEEK 2	6/10~6/14	Artist Corner	Experiment with art materials, build new skills, discover art to launch your child's inner creativity.
WEEK 3	6/17~6/21	Amazing Race	Navigating through various obstacle races and challenging games builds teamwork and cooperation among kids.
WEEK 4	6/24~6/28	Chemical Reaction	Nurture the kids' curiosity by conducting fun experiments to develop their analytical skills and learn about the world around them.
WEEK 5	7/1~7/5	Imaginarium	Children get to let their imagination run wild through story-telling that encouraging them to think critically, problem-solve, and express themselves creatively.
WEEK 6	7/8~7/12	Song of Music	Singing, dancing, song writing and more! Every child is a STAR.
WEEK 7	7/15~7/19	Little Chef	Easy and fun cooking recipes for kids to learn practical life skills and food literacy. Both yummy and satisfying.
WEEK 8	7/22~7/26	Engineering Workshop	Explore engineering principles by designing and building projects using various materials. Children learn to communicate and construct through ideas, obstacles, potential solutions, and more.
WEEK 9	7/29~8/2	Adventure Challenges	Through active games and brain teasers, children are challenged both physically and mentally to build strength, coordination, and resilience.
